HOLS	__/__/__ TO __/__/__		

The growing seedlings in the **Nursery in a Box** need to be cared for over the weekend and during holidays.

Just like us, they need a drink of water every day!

**To prevent the spread of soil-borne diseases**, the base of the box must not touch soil or places where there is soil (e.g. grassed areas).

For ease of transport, we suggest you place the base box into a large bin liner when taking it to and from home and school.

This prevents the car it's travelling in getting wet or dirty too.

GREENER PLACES =) HAPPY FACES
